

# Let's care for the environment together

Are you interested in where you live,  
your community and the environment?

Do you want to lead a community project,  
but don't know how?

# Our free Caring for the Environment Together online programme harnesses your innate potential, leadership and community spirit for inspired action that promotes a community in harmony with the environment and with one another.

This flexible programme will run over nine months and is a great opportunity to develop yourself, your skills, your ideas and your neighbourhood. You will develop new relationships with neighbours and local Council officers, learn how to bring out the best in yourself and others, and co-create the community you want.

We'll help you develop your confidence, creativity and working with others. Build skills in:

- Leadership
- Listening
- Collaboration
- Communication
- Digital tools.

As part of the programme you'll access:

- Amity's Foundations for Change Self-Study Programme
- Live group sessions with Amity
- One-to-one coaching and mentoring with Amity
- Amity content
- Amity's community
- Climate training modules by Manchester City Council and partners
- Council teams and services info and relationships.

**"This is a brilliant programme and something that everyone should do!"**

Past Amity programme participant

Don't worry if you struggle to use your device to get online; we can offer support for this too.

The deadline for applications is **16 October 2020 by 12 noon.**
