The proposed measures

In 2019, a bid was made to the Mayor's Challenge Fund to support the creation of a 'active neighbourhood' in Levenshulme and north Burnage. Its aim is to make roads in the area safer and more pleasant, and encourage more people to walk and cycle for short journeys. Part of this involves measures to discourage traffic from cutting through the neighbourhood to avoid congestion on other routes, as well as to help manage the speed and volume of local traffic.
